

# Advanced Drug List

## Medication Alternatives

The Advanced Drug List is a list of prescription medications approved by the U.S. Food and Drug Administration (FDA). We've reviewed these drugs through our Pharmacy and Therapeutics (P&T) Process, which considers a drug's:

- Effectiveness
- Safety
- Similarity to other drugs within a therapeutic class
- Affordability

The Advanced Drug List is an open drug list or formulary, with some closed drug classes. The list includes a broad range of drug choices — including 97% of all prescription medications.\* If a medication is not on the list, there are other high-quality, cost-effective choices, called preferred alternatives, that are.

Medications not included on the Advanced Drug List are shown on the chart included here, along with their preferred alternatives that are on the list. Please note, exclusions and limitations may apply. For details about what's covered and what's not, it's best to check the *Certificate/Evidence of Coverage or Summary Plan Description*.

To view and search the complete Advanced Drug List, members should log in at [anthem.com](http://anthem.com) and choose Prescription Benefits. Information on dosage/strength options and any restrictions such as quantity limits, prior authorization or step therapy requirements is available.

Members can also call Pharmacy Member Services at the number on their member ID card or visit [anthem.com](http://anthem.com).

### What if a medication isn't on the Advanced Drug List?

There may be times when a member's drug isn't on the Advanced Drug List. If the covered alternative options are not right for the member, doctors can submit a request for an exception. This process, called prior authorization, requires doctors to call the Member Services number on the member's ID card or log in at [anthem.com](http://anthem.com) and choose Tools & Resources to download and submit the prior authorization form. Doctors can also submit prior authorizations electronically, which requires less processing time and possible real-time approval so members can fill their prescriptions without delay.

For the most up-to-date information, members should log in at [ingenio-rx.com](http://ingenio-rx.com) and choose Prescription Benefits.
