

Focused Drug List

Medication Alternatives

The Focused Drug List is a list of prescription medications approved by the U.S. Food and Drug Administration (FDA). We've reviewed these drugs through our Pharmacy and Therapeutics (P&T) Process, which considers a drug's:

- Effectiveness
- Safety
- Similarity to other drugs within a therapeutic class
- Affordability

The Focused Drug List is a closed formulary, which means that only the prescription drugs on the list will be covered by the plan. Drugs that aren't covered have cost-effective, high-quality alternatives available. There may be a brand alternative, a generic equivalent or an over-the-counter (OTC) option. Brand-name drugs with a generic equivalent available aren't covered on the Focused Drug List.

Some common drugs that aren't on the Focused Drug List are shown below. Other preferred alternatives may also be available. Please note, exclusions and limitations may apply. For details about what's covered and what's not, it's best to check the Certificate/Evidence of Coverage or Summary Plan Description (SPD).

To view and search the complete Focused Drug List, members should log in at ingenio-rx.com and choose **Prescription Benefits**. Information on dosage/strength options and any restrictions such as quantity limits, prior approval or step therapy requirements is available. Members can also call Member Services at the number on their ID card.

What if a medication isn't on the Focused Drug List?

There may be times when a member's drug isn't on the Focused Drug List. If the covered alternative options aren't right for a member, their doctor can submit a request for an exception. This process called prior authorization, also known as a preapproval requires the doctor to call the Member Services number on the member's ID card or log in at ingenio-rx.com and choose Tools & Resources to download and submit the preapproval form.

Doctors can also submit preapproval requests electronically, which requires less processing time and possible real-time approval so members can fill their prescriptions right away.

For the most up-to-date information, members should log in at ingenio-rx.com and choose **Drug Lists and pharmacy tools**.
